## Fixed bugs and enhancements for QTMS 1.0:

<u>ID</u>	<u>Summary</u>
<a href="#"><u>2442</u></a>	User should be allowed to import cases in any of the folder structure.
<a href="#"><u>2513</u></a>	User is restricted to modify an executed test case in TCMS 1.9.3.
<a href="#"><u>2517</u></a>	A defect ID provided while executing a test case is not retained after migration.
<a href="#"><u>2523</u></a>	The assigned test cases are not reflected in the account of "Tester" after migration.
<a href="#"><u>2524</u></a>	Error is displayed on deleting a test plan.
